Praveen Singh Mahra

Front End Developer

📞 8475091236   ✉ praveen.mehra65@gmail.com   🐙 Github   📍 Champawat, Uttarakhand

🪪 PROFILE

I'm passionate about learning the latest and greatest technologies whether that is the frontend or backend. I enjoy creating sleek and responsive web applications in addition to being user friendly. I love working in fast paced environments. Adaptable and self motivated learner. Interested in new programming technologies, and continuous self improvement.

🧠 SKILLS

- HTML
- Git/Github
- Netlify
- CSS
- AJAX
- Vite
- JavaScript
- CSS Frameworks (Bootstrap, Tailwind CSS)

📁 PROJECTS

E-commerce website
Live Link: https://praveen-ecommerce.netlify.app ⧉
GitHub: https://github.com/PraveenMahra/e-commerce-website ⧉

- Designed and developed an interactive eCommerce app using **HTML, CSS, and JavaScript**. This app provides users with a seamless online shopping experience
- Features dynamic functionalities such as **product retrieval** and a shopping cart.
- Implemented various JavaScript functionalities, including form validation to ensure **accurate user input**, error handling for a smooth browsing experience, and local storage to save user preferences and cart information across sessions.

Vikinger

Live Link: https://vikinger-community.netlify.app ⧉

GitHub: https://github.com/PraveenMahra/vikinger ⧉

- The landing page showcases Vikinger's **captivating design,** introducing users to its unique features and benefits.
- The **testimonial page** features user reviews and feedback, fostering credibility and trust in the app's capabilities.
- The sign-in/forget password page ensures a seamless login process, prioritizing security and convenience for users.

Omnifood - Online Food Ordering Landing Page

Live Link: https://praveen-omnifood.netlify.app ⧉

GitHub: https://github.com/PraveenMahra/omnifood ⧉

- A responsive and visually appealing landing page designed and built using HTML and CSS.
- Key features include stunning imagery, and a responsive layout that adapts to various screen sizes.

Password Generator
